NH DHHS COVID-19 Update – February 4, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, February 4, 2021, DHHS announced 433 new positive test results for COVID-19, for a current PCR test positivity rate of 3.1%. Today's results include 303 people who tested positive by PCR test and 130 who tested positive by antigen test. There are now 4,099 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today:

- **2/2:** 124 new cases today, for an updated total of **388** cases
- **2/3:** **309** new cases

Test results for previous days are still being processed and the total number of new positives for those days are not yet complete. Updated case counts for prior days will be reflected on the [COVID-19 interactive dashboard](#).

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are sixty-seven individuals under the age of 18 and the rest are adults with 51% being female and 49% being male. The new cases reside in Rockingham (105), Hillsborough County other than Manchester and Nashua (80), Merrimack (39), Strafford (38), Grafton (23), Belknap (18), Sullivan (16), Cheshire (11), and Carroll (8) counties, and in the cities of Manchester (59) and Nashua (24). The county of residence is being determined for twelve new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced nine additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Grafton County, 60 years of age and older
